Stormwater Conference Awards

The Stormwater Excellence Awards

The Stormwater Excellence Awards are an important opportunity to recognise excellence and achievement of our stormwater practitioners across the stormwater industry.

We are seeking nominations for three awards that will celebrate and acknowledge outstanding achievements, innovation and excellence in the stormwater sector and projects.

Nominations for the Excellence Awards close, **Tuesday 24 March**.

Why Enter the Stormwater Excellence Awards?

A Stormwater Excellence Award gives you recognition from your peers for your outstanding achievements and significant contribution to the stormwater industry.

A Stormwater Excellence Award is beneficial for many reasons:

- Give your team and your organisation the recognition they deserve.
- Demonstrate the incredible results you have achieved.
- Your story, your success. Shine a positive light on all your hard work.
- Gain positive PR and improve brand awareness.
- Motivate your team and develop pride.
- Distinguish yourself from your competitors
- Receive public endorsement from the New Zealand stormwater sector.
- The awards are presented at the Stantec Conference Dinner during the Stormwater Conference & Expo.

Entering the stormwater excellence awards is easy.

We are looking for short punchy entries that match the category criteria, with key information and data clearly showcased.
